Sidewalk Construction Quotes Requested

The Local Urban District of Richer is looking to complete the sidewalk projects listed below in 2025. **Please provide all quotes in \$/linear feet.** All work is to conform to the Municipal Services Standards, available at www.rmofsteanne.com, which is mostly outlined below.

2025 Sidewalk Construction Projects:

Project 1: Crosswalk sidewalk connections (from existing sidewalk to Dawson Road surface, both sides);
Roughly 83 linear feet. RM will provide culverts if/as required.

Project 2: Repair buckle on the south side of Dawson Road W, in the vicinity of Civic #50. Roughly 10 linear feet.

Project 3: East side of PR 302 from Dawson Road north towards Hwy #1E Service Road.
The scope of this project will be adjusted based on the quotes received given the limited budget, but will not exceed 1630 linear feet.

Please provide your quote before **March 26, 2025** for labour and supply of the required materials for:

- Removal of existing grass, topsoil and sidewalk where applicable
- Move the sidewalk to match existing placement
- Construction of sidewalk to Municipal Standards:
 - Geotextile
 - Supply and compact base as required (Min.150mm A-Base)
 - Steel reinforced (10M bars at 600mm o/c)
 - Supply 30 mpa concrete (air entrained)
 - 1.5 Meters wide (5ft) & 125mm Thick (5")
 - Ramp style connection to roads with warning strips (where applicable)
 - Grade to be between 2-4%
- Topsoil and seed whole project to match the surrounding areas

Our preference would be to have these projects undertaken and fully completed in July 2025.

If you have any questions about the project, please feel free to contact:
