

2026 Spring Road Restrictions

The purpose of Spring Road Restrictions is to protect our roads from undue damage by reducing the allowable truck weight during the spring thawing season.

Municipal Spring Road Restrictions are as follows;

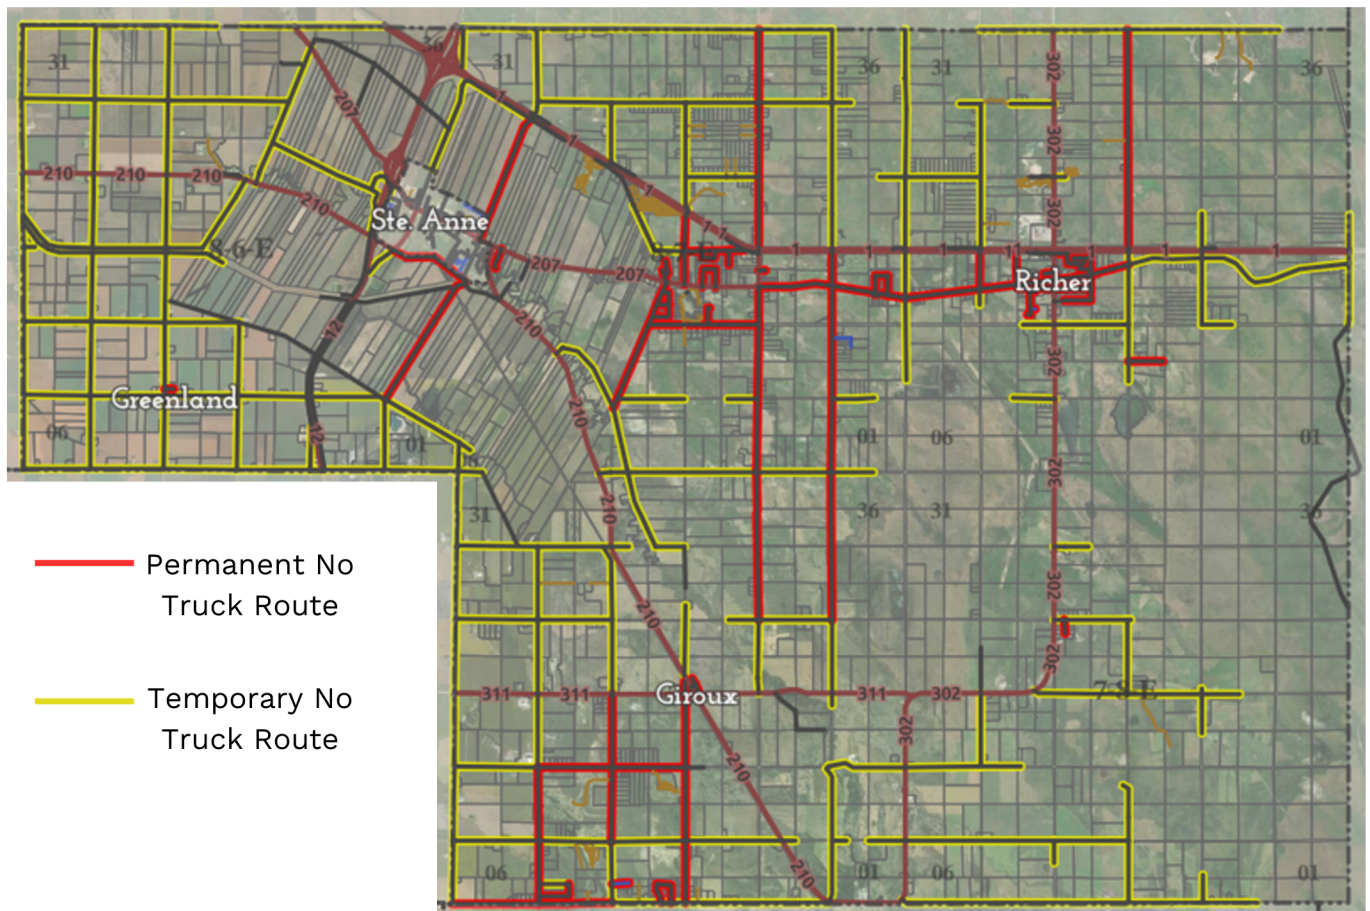

Per the RM's No Truck Route By-Law 2024-07 Schedule A,

- Temporary No Truck Routes will be automatically implemented seasonally, in concert with Provincial Road Restrictions in the same area.
- In addition to the above, Temporary and Emergency No Truck Routes will be implemented at the discretion of the Enforcement Officer when environmental or other conditions render highways vulnerable to damages.

Temporary No Truck Routes are in effect March 20, 2026

Restrictions will end at the latest May 29, 2026.

Dates subject to change based on Provincial and environmental changes

For more information please visit the No Truck Route By-Law that can be found on our website www.rmofsteanne.com>Resources>By-laws & Policies>No Truck Route.
