

# STE. ANNE MUNICIPALITY

## Policy #11-ADMIN

**Adoption Date:** May 13, 2020

**Revision Date:** July 12, 2023

**Resolution #2023-351**

**Subject:** Dust Control Policy

**Department:** Administration

---

**Purpose:** The purpose of this policy is to establish conditions and standards for the application of dust control within the Municipality for the benefit of private residences and/or businesses.

**Policy:** Municipal Administration and Transportation Department:

- a. The provision of dust control shall be limited to one application per year. Dust control shall be applied annually on or about the middle of June at the expense of the general transportation fund and be carried out under the supervision of the Operations Manager, or a delegate thereof. Dust control costs within the Local Urban District (LUD) of Richer shall be at the expense of thereof the LUD of Richer and under the supervision of the Operations Manager, or a delegate thereof.
- b. To qualify for dust control the applicant's residence and/or building must be located within one hundred (100) meters of the center of any municipal grid road.
- c. Residents with dwellings and/or buildings located beyond one hundred (100) meters or who may otherwise not qualify under subsection (b.) may apply for dust control at the municipal office by completing the prescribed and attached form and, if approved, shall be responsible to pay 100% of the dust control application for a minimum of 100 meters in length of application. Applications need to be completed before April 15<sup>th</sup> to be considered during the dust control program.
- d. Dust control shall be applied continuously where distances between residences are less than one hundred (100) meters between each residence.

# STE. ANNE MUNICIPALITY

- e. Dust control will be applied on intersections in the municipality at the discretion of the Operations Manager of 50 Meters (150ft) in each direction and leading up to any highway.
- f. Dust control shall be applied up to two (2) times on designated aggregate haul routes annually on or about the beginning of June as required, and up to one more additional application at the discretion of the Operation Manager.
- g. Additional dust control applications that are not specifically covered within this policy may be made if so approved by the Operations Manager based on available funds within the operating budget. These additional applications, subject to approval, are to be carried out under the supervision of the Operations Manager or a delegate thereof.
- h. The standard application of dust control shall be approximately one hundred (100) meters in length by five (5) meters wide, or determined on a case by case basis. On haul routes the standard application of dust control shall be approximately one hundred and fifty (150) meters in length by seven and one half (7.5) meters wide, or determined on a case by case basis.
- i. Dust control applications under this policy apply to Municipal roads only.
- j. The Operations Manager, in consultation with the Chief Administrative Officer, are authorized to apply Dust Control in areas outside the scope of this policy, if they deem it necessary and appropriate to do so in the interest of public safety and community well-being. Total amounts expensed on annual dust control are not to exceed the annual approved dust control budget.
